PROFILE

ICT graduate and full-stack developer with practical experience in website development, web applications, APIs, databases, automation and SEO/SEM. I have built and maintained websites and digital products across several industries, and enjoy solving technical problems and learning new technologies. I am open to web development, IT support and systems-focused roles, remote or on-site, in Kenya or internationally.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | WordPress, Automation & SEO/GEO | Schlacht Media
2024 – Present | Hybrid

- Manage and maintain websites, including technical updates and performance improvements.
- Work with APIs, JSON data, website structure and technical optimization.
- Use Google Analytics and Google Search Console to monitor website performance.
